Ms. Himani Tyagi, Assistant Professor, University School of Automation and robotics, GGSIPU, Delhi, email id: himanityagi.usar@ipu.ac.in]

Mr. Hemant Kumar, Assistant Professor, Department of Computer Science, Aryabhatta College, South Campus, University of Delhi, hemant.sscbs@gmail.com]

SESSION DESCRIPTION:

This special session of ICDAM 2024 is focused on recent **Empirical Artificial Intelligence for Health Care Systems**, covering a wide range of topics, from tool development to social and human factors. We invite submissions of original and innovative research papers, as well as practical or industrial experience reports, in empirical engineering. The objective of this special section is to share new and innovative contributions, the strengths and weaknesses of technologies in use, and new technologies, as well as original or replicated studies varying from controlled experiments to field studies and from quantitative to qualitative analyses.

RECOMMENDED TOPICS:

Topics to be discussed in this special session include (but are not limited to) the following:

- Health care
- Automated supports for software development
- Development of tools/systems and management reports

- Empirical studies using qualitative, quantitative, and mixed methods
- Software ecosystems
- Block chain

SUBMISSION PROCEDURE:

Researchers and practitioners are invited to submit papers for this special theme session on [Empirical Artificial Intelligence for Health Care Systems] on or before [30th November 2024]. All submissions must be original and may not be under review by another publication. INTERESTED AUTHORS SHOULD CONSULT THE CONFERENCE'S GUIDELINES FOR MANUSCRIPT SUBMISSIONS at https://icicc-conf.com/paper submission. All submitted papers will be reviewed on a double-blind, peer review basis.

NOTE: While submitting paper in this special session, please specify [Empirical Artificial Intelligence for Health Care Systems] at the top (above paper title) of the first page of your paper.
