

ICICC-2023

6th International Conference on Innovative Computing and Communication

Organized by Shaheed Sukhdev College of Business Studies, New Delhi, India
On 17-18th FEBRUARY 2023.

******* CALL FOR PAPERS **********

SPECIAL SESSION ON

Antennas and Embedded Systems

SESSION ORGANIZERS:

Hamzah M. Marhoon, Al-Nahrain University, College of Information Engineering, Republic of Iraq, hamzah.marhoon@nahrainuniv.edu.iq & hamzaalazawy984@gmail.com

EDITORIAL BOARD: (Optional)

- 1. Mr. Hamzah M. Marhoon, Al-Nahrain University, College of Information Engineering, Republic of Iraq, hamzah.marhoon@nahrainuniv.edu.iq & hamzah.marhoon.edu.iq & <a href="https://hamzah.marhoon.edu
- 2. Dr. Noorulden Basil, Mustansiriyah University, College of Engineering, Republic of Iraq, noorulden@uomustansiriyah.edu.iq & noraldenbasil@gmail.com

SESSION DESCRIPTION:

In today's interconnected world, the seamless exchange of information is paramount, driving the need for robust communication systems. Antennas play a pivotal role in enabling this communication by serving as the bridge between electronic devices and the electromagnetic spectrum. They come in various shapes and designs, each tailored to specific applications, from wireless networks to satellite communication. Alongside antennas, embedded systems provide the intelligence behind these devices, optimizing their performance and functionality. Embedded systems, consisting of microcontrollers or microprocessors, facilitate real-time processing, data collection, and control, enabling smart decision-making and adaptability. This conference session delves into the synergy between Antennas and Embedded Systems, exploring how their integration leads to efficient, reliable, and cutting-edge communication technologies that shape our modern world.

RECOMMENDED TOPICS:

Topics to be discussed in this special session include (but are not limited to) the following:

- Microstrip Antennas
- Tuneable Antennas
- Intelligent Antennas
- Antennas with Filters
- Embedded Systems

- Arduino Based Systems
- Raspberry Based Systems
- Tracking and Recognition Based Embedded Systems
- Other Types of Microcontrollers

SUBMISSION PROCEDURE:

Researchers and practitioners are invited to submit papers for this special theme session on [session name] on or before [30th October 2022]. All submissions must be original and may not be under review by another publication. INTERESTED AUTHORS SHOULD CONSULT THE CONFERENCE'S GUIDELINES FOR MANUSCRIPT SUBMISSIONS at http://iciccconf.com/paper_submission.html. All submitted papers will be reviewed on a double-blind, peer review basis.

NOTE: While submitting paper in this special session, please specify [**Session Name**] at the top (above paper title) of the first page of your paper.
